Introduction

An enthusiastic Frontend Developer with 5+ years of experience in React.js, Next.js, Vue.js, and Nuxt.js ecosystem. Specializing in crafting high-quality, visually impressive, and user-focused digital experiences. I love continuously learning, discover new things, and experimenting with ideas that balance design, functionality, and efficiency.

Experiences

Universitas Terbuka – Frontend Developer

July 2025 – Present

Universitas Terbuka (UT) is Indonesia's public open and distance learning university, serving hundreds of thousands of students across Indonesia and abroad. At UT, I work on a complex tax-related web application with dynamic rule based forms for accurate data entry and verification.

- Designed and built the front-end codebase architecture from scratch with a clear folder structure, state management strategy, and consistent component patterns, ensuring a modular, scalable, and maintainable codebase for long-term development using the Next.js and Tailwind ecosystem.
- Implemented a complex tax form with dynamic and conditional logic, including formula calculations involving multiple inputs, to ensure calculation accuracy and reduce potential user errors.
- Collaborated closely with backend engineers to design and integrate APIs, align business flows, and ensure efficient data communication between frontend and backend.
- Worked with UI/UX designers to translate designs into a scalable component architecture, while proposing and implementing design improvements to enhance visual quality, usability, and accessibility.
- Wrote code by applying best practices, clean code principles, and separation of concerns to maintain code quality, clarity, and long-term maintainability.
- Performed debugging, bug fixing, and performance optimization to keep the application responsive and stable, even under complex calculation scenarios and heavy user input.

Telkom Indonesia – Frontend Developer

February 2020 – March 2025

Telkom Indonesia is the country's largest state-owned telecommunications company, serving over 150M+ customers and playing a key role in Indonesia's digital transformation. Key Projects: Data Exchange, My IndiHome, Smart Profile, Smart Capex.

- Designed, developed, and maintained scalable frontend solutions using the React.js ecosystem, ensuring high performance and maintainability.
- Conducted unit testing, debugging, and performance optimizations to enhance application stability and efficiency.
- Led the frontend development team, providing mentorship and guidance to ensure best coding practices and responsiveness across all devices.
- Developed and enhanced internal dashboards for data management, streamlining internal processes and improving operational efficiency.
- Collaborated with backend engineers to efficiently integrate features and ensure smooth API communication and data flow.
- Worked alongside UI/UX designers to translate design into reusable and scalable component code.
- Revamped the website interface, leading to an improved user experience and improved user interaction.

Galajidar Theta Optima – FullStack Developer Intern

June 2019 – July 2019

Galajidar Theta Optima is a software house based on Bandung.

- Collaborated with design team and implemented designs into code.
- Create company profile website and CMS dashboard using PHP, Materialize, and MySQL.

Education

Telkom University – Diploma of Software Engineering, GPA 3.68

2017 – 2020

Skills

Technical Skills

React.js, Next.js, TypeScript, JavaScript, Zustand, Redux, Redux Toolkit, Context, TanStack Query, React Router, React Hook Form, Zod, Vue.js, Nuxt.js, Composition API, Vue Router, Pinia, Vite, ECMAScript, HTML, CSS, SCSS, Tailwind CSS, Shadcn, Radix, Material UI, MUI, Bootstrap, Framer Motion, ApexCharts, Unit Testing, Jest, Enzyme, REST API, SEO, Firebase, MySQL, PHP, Laravel.

Tools and AI

ChatGPT, Gemini, Cursor AI, Trae AI, Visual Studio Code, Postman, Github, Gitlab, Jira, DevTools, NPM, Figma, Scrum, ESLint, etc

Awards

2nd Web Design – OLINAMASI IPB University	October 2017
4nd Web Design – OLIVIA UNAIR University	October 2018
Finalist UX Design – FINDIT! UGM University	April 2019

Certification

Google UX Design – Google	February 2025
Mastering TypeScript – 2023 Edition – Udemy	October 2023
Web Programming Basics – Dicoding	October 2019

Organization and Volunteer

Laboratory Assistant and Web Dev Mentor – Chevalier Lab	August 2018 – August 2019
Community Organizer – Design Jam Indonesia	March 2020 – January 2021

Selected Project

Watchlur

Movie database website similar to IMDb or TMDB.
